Section 17: Each word has the letter "E" in their final syllable.

Section 18: Lord I is likely insane and doesn't realize his desired FOM is impossible due to the constraints. His TOFOM however, can be put in consecutive decreasing order (6,5,4,3,1) in the case his Sanity rose by 1, his TOFOM would be (6,5,4,3,2). Coming to this conclusion I believe his FOM is 360.

Here's a snapshot of the Settings startup screen.

I decided to go with a Mobile-Desktop hybrid theme for the OS, I did this because the Reality Lens will be able to achieve a lot of great tasks, and have an abundance of features.

With that being said, I didn't want to destroy it's ease of use. So, I refrained from over-adding icons, unnecessary features etc.

In the near future, I'll be showing much more, also going over the "Echo", "Iriis", and "Realities" settings.

All feedback is appreciated,

Thanks.
